PROFILES OF CITIES

Profiles of Cities was designed to be a general reference document about the incorporated cities in the County of San Diego - providing basic information including population estimates, major services provided by each city, major capital assets, and the names of principal public officials.

LAFCO appreciates the assistance of the Cities in supplying profile data and hopes that the document will prove a useful reference source.

CITY OF CARLSBAD

INTRODUCTION

The City of Carlsbad has an area of 29 square miles within city limits. Located on the Pacific Ocean about thirty miles north of San Diego, Carlsbad has about six miles of coastline. The Buena Vista, Agua Hedionda and Batiquitos Lagoons are located within or adjacent to Carlsbad.

The city has a population of 31,200 (January, 1980) and has experienced a population growth rate of 57% between the years 1970-77. The projected population for the City of Carlsbad in 1995 is 77,800. The growth rate between the years of 1977-1995 is anticipated to be 142.4%.

The city imposes a tax rate of \$.05 per \$100 of assessed valuation to fund the retirement of sewer bonds. The assessed valuation for fiscal year 1979-80 was \$312,538,738.

AGENCIES SERVING CARLSBAD

In addition to the services provided by the County of San Diego, a number of special districts provide various services to Carlsbad.

The Costa Real Municipal Water District provides retail water service to part of the city as well as wholesaling water to the City of Carlsbad Water Department. Costa Real Municipal Water District obtains its water from the San Diego County Water Authority. Olivenhain Municipal Water District and San Marcos County Water District also supply water service to portions of the southeastern area of the city.

The City of Carlsbad Sanitation Division supplies sewer service to the major part of the city and the eastern quarter is served by the Leucadia County Water District.

The City of Carlsbad is a member of the Encina Joint Sewerage Agency (also participating are the Vista Sanitation District, Encinitas Sanitary District, Leucadia County Water District, Buena Sanitation District and the San Marcos County Water District) which treats and disposes of the sewage produced within the City of Carlsbad, as well as from the other member

agencies. The Joint Sewerage Agency owns and operates the Encina Water Pollution Control Facility which treats the sewage and has an average flow of 12.3 million gallons per day. The present capacity rights of the City of Carlsbad in this treatment facility are 3.75 mgd. The plant provides primary treatment, through the use of a grit removal unit and a primary sedimentation tank. The treated effluent is discharged into the Pacific Ocean approximately 8,000 feet from the shore through an ocean outfall.

CARLSBAD'S MAJOR CAPITAL ASSETS

The City of Carlsbad operates three fire stations. The fire department employs 45 personnel. In addition to fire suppression and prevention activities, the fire department provides emergency ambulance and paramedic service. The Cities of Carlsbad and Oceanside have entered into an automatic response agreement which provides for dispatch of the nearest fire units regardless of the political boundary between the two cities.

The Carlsbad Police Department employs 52 personnel and provides a full range of municipal police services. In addition, the police department provides seasonal beach and lagoon patrols.

The City of Carlsbad Library Department had, during 1978-79 fiscal year, a book circulation of 333,864. The library collection includes 94,296 separate titles and a total of 117,273 volumes. The library operates a small bookmobile.

The Parks and Recreation Department employs 27 personnel to provide park maintenance and recreation programs. An extensive capital improvement program is proposed for the department over the next five years. Numerous neighborhood parks will be developed and a large swimming complex, adjacent to Carlsbad High School, will be constructed.

The Planning Department employs fifteen personnel to carry out a variety of planning activities. The department handles Zoning Administration and Advance Planning tasks and is presently studying a growth management program based on the provision of public facilities. In addition, the department is responsible for developing a Local Coastal Program for the city as required by the Coastal Conservation Act of 1976.

The Engineering Department employs 18 personnel and provides engineering services for the city.

The Building Department employs seven full-time personnel to provide building inspection services.

The City Council sits as the Carlsbad Housing and Redevelopment Commission. The Housing Authority operates a housing assistance program, utilizing federal housing assistance programs to provide 230 units of assisted housing. They also administer the revitalization and redevelopment program for the downtown area.

PERSONNEL EMPLOYED BY CARLSBAD

The City of Carlsbad is a general law city, incorporated in 1952. Carlsbad has a Council-Manager form of government. The Mayor and the other four members of the City Council are elected at large. The City Clerk and City Treasurer are also elected. The City Manager and City Attorney are appointed by the City Council and serve at the pleasure of the Council. The City Manager appoints all other employees. The City has a work force of 289 full-time personnel for the 1979-80 fiscal year.

CITY OF CHULA VISTA

INTRODUCTION

The City of Chula Vista consists of 12,800 acres and is located south of National City along San Diego Bay. Chula Vista has a population of 81,400 (January, 1979) and has experienced a population growth rate of 20% between the years 1970-79. The projected population for Chula Vista in the year 1995 is 131,000. The growth rate between the years 1979-1995 is anticipated to be 61%.

The City imposes a tax rate of \$.034 per \$100 of assessed valuation (fiscal year 1979-80). As of July 1, 1980, \$800,000 remained unpaid on a General Obligation Bond.

AGENCIES SERVING CHULA VISTA

Water is distributed to the residents of Chula Vista by the Sweetwater Authority, a public agency. This division receives its water from the South Bay Irrigation District and the City of National City, both members of the San Diego County Water Authority. The City of Chula Vista is within the boundary of the South Bay Irrigation District and the Otay Municipal Water District. Water for use in Chula Vista is transferred from these wholesale water agencies to the Sweetwater Authority at the Sweetwater Reservoir.

Other agencies serving Chula Vista include the San Diego Port District, which operates the Chula Vista marina, and San Diego County, which operates a health clinic within Chula Vista and the South Bay Municipal Courts.

CHULA VISTA'S MAJOR CAPITAL ASSETS

The City of Chula Vista provides many of the major urban services to the inhabitants of the City including sewage collection, police and fire protection, park and recreation facilities, library services, streets and highways, transit, and flood control (drainage).

The City of Chula Vista collects the sewage generated within the City, and contracts for its treatment and disposal with the Metropolitan Sewerage System of the City of San Diego. Under the agreement, Chula Vista's capacity rights in Metro's Point

Loma plant is 22.1 mgd; its current flow through the facility is 6.9 mgd. Approximately 880,000 gpd of Chula Vista's capacity rights are leased to the Spring Valley Sanitation District. Separate agreements with the Spring Valley Sanitation District and the Montgomery Sanitation District allow the City to convey its sewage through facilities of the respective districts. The Montgomery Sanitation District also conveys sewage through the facilities of the City of Chula Vista.

The Chula Vista Fire Department operates out of one headquarters station and three substations. The department owns 7 staff cars, 2 pick-ups, a mini-pumper utility truck, a crash rescue vehicle, and 6 pumper with pumping capacities of 1,000 gpm (4 vehicles), 1,250 gpm (1 vehicle) and 1,500 gpm (1 vehicle). Of the total structures within the City of Chula Vista, 95% are within a 4-minute response time from one of the Department's fire stations, and 5% are within 5-7 minute response time.

The Chula Vista Police Department operates out of one central station located near the downtown area of Chula Vista. The Department owns 17 marked patrol cars and an additional 30 vehicles of various types: staff cars, investigative vehicles, etc. It takes a police officer an average of 5 minutes to respond to an emergency call from within Chula Vista.

The City of Chula Vista maintains 30 parks, totaling over 300 developed acres, plus a championship 18-hole golf course. The Parks and Recreation Department operates 31 tennis courts, four swimming pools, a Senior Service Center, an Information and Referral Center, three recreation centers, and after-school playground programs at 10 elementary schools. The Department conducts a therapeutic program for the mentally and physically handicapped; and numerous recreation programs, such as softball, basketball and gymnastics. The Department supports Little League, Pony League and Miss Softball America activities.

Three redevelopment project areas have been designated by the City. The Bayfront project encompasses over 700 acres along San Diego Bay and has been planned for multi uses including hotels, restaurants, other visitor-serving commercial, housing, and light industrial uses. The Town Centre I and II projects have been instituted to assist the private sector in building a stronger economic base for the City. As of March 1, 1980, over \$100 million in projects have been completed, are under construction, or are about to start.

The Development Services Group provides services for all development, transit and construction activities in the City. The Building, Community Development, Engineering and Planning Departments are located in the new Public Services Building which is in the Chula Vista Civic Center area. Transit and Street Maintenance activities operate out of the Public Works Center at the corner of Woodlawn and "F" Streets.

The City of Chula Vista operates a new 55,000 square foot public library opened in 1976. The facility serves a population of 81,400 residents, and houses over 150,000 books.

PERSONNEL EMPLOYED BY CHULA VISTA

The Chula Vista Fire Department is organized into four divisions, with 67 budgeted positions. Fire Suppression maintains 60 shift personnel. There are 20 assigned to the "A" shift, 20 assigned to the "B" shift, and 20 assigned to the "C" shift. The other divisions include Training (1 position); Equipment Maintenance (1 position); Fire Prevention (3 positions).

The Chula Vista Police Department has 125 budgeted positions, including animal regulation. Of these positions, there are 18 Sergeants 3 Captains, 25 Agents, 5 Lieutenants and 41 Peace Officers. The Department also maintains a reserve force of 85 persons.

The Chula Vista Parks and Recreation Department budgets 49 full-time positions, including golf course maintenance. In addition, approximately 90,550 part-time hours are used to direct the programs.

The Chula Vista Library budgets 24 positions. Of those positions, 12 are trained librarians.

The Development Services Group employs 155 full-time positions which include professional engineers, planners, and administrators as well as the maintenance and clerical force necessary to maintain and construct the City's various street and building facilities.

Chula Vista has a 5-member City Council, a 7-member Planning Commission, and 15 management level personnel on the City staff. The City employs additional personnel for street lighting and maintenance, weed abatement, sewer service, and various administrative duties.

CITY OF CORONADO

INTRODUCTION

Coronado, a city of 3,008 acres, is located on the southern portion of Coronado Island and extends south along the Silver Strand to the terminus of San Diego Bay. The City has a population of 22,900 (January, 1977) and has experienced a population growth rate of 9.5% between the years 1970-1977. The projected population for Coronado in the year 1995 is 26,912. The growth rate between the years 1977-1995 is anticipated to be 22.4%.

The City imposes a tax rate of \$.02 per \$100 of assessed valuation (fiscal year 1979-80). At the end of 1979, \$250,000 remained unpaid on General Obligation Bonds, and \$535,000 on Revenue Bonds.

AGENCIES SERVING CORONADO

Water is supplied directly to the inhabitants of Coronado by the Coronado Division of the California American Water Company, a private, investor-owned corporation. This Division obtains its water from the City of San Diego, which in turn, receives its water from the California Water Authority. There is a 24-inch pipeline running under San Diego Bay which connects Coronado with downtown San Diego.

Local and intra-city public transportation is provided by the San Diego Transit Corporation, three private cab companies, and a Dial-a-Ride Service provided by the Coronado Cab Company.

CORONADO'S MAJOR CAPITAL ASSETS

The City of Coronado provides many of the major urban services to the inhabitants of the City including fire and police protection, park and recreation, library services and sewage collection.

The Coronado Fire Department operates out of one headquarters station, located in the center of the incorporated portion of Coronado Island, and one substation, located on the southern portion of the Silver Strand. The Department owns 2 ambulances, 2 staff cars, 1 rescue vehicle, 2 pick-up utility trucks, and various pumper trucks with pumping capacities of 1,000 gpm, 1,250 gpm (a 100-foot aerial ladder truck), and 1,500 gpm. All of the

structures located in the incorporated portions of Coronado Island are within a 3-minute response time from the Department's headquarters station; the response time to the structures on the Silver Strand varies with the distance from the headquarters station or the substation. Water is provided to the Department by the California American Water Company.

Police protection is provided to the residents of Coronado by the Coronado City Police Department. The Department operates out of one headquarters building and owns 13 patrol vehicles, 3 motorcycles, an animal truck and a parking meter scooter. The average time for an officer to respond to an emergency call within the City is $1\frac{1}{2}$ minutes.

The service of sewage collection is provided by the City of Coronado, while treatment and disposal of the sewage is accomplished by the Metropolitan Sewerage System, under a contract between the Cities of San Diego and Coronado. Coronado's capacity rights in the Metro System's Point Loma treatment plant is 3.0 mgd; its present flow through this facility is 1.97 mgd.

Park and recreation services are provided by the Coronado Recreation Department. There are 3 mini-parks, 5 neighborhood parks, and 6 community parks maintained by the Department within Coronado, plus 1 (each) public swimming pool, bicycle trail, municipal golf course, wildlife preserve, and public beach. A park is proposed to be constructed near the San Diego-Coronado Bridge in northeast Coronado. The Department conducts a varied recreation program including swimming, tennis, lifesaving, golf, and first-aid lessons, as well as arts and crafts activities.

Finally, library services are provided by the City of Coronado which maintains a 125 (adult) seat library within the City. The library may also accommodate approximately 42 children. There is an assembly room attached to the library which can seat about 110.

PERSONNEL EMPLOYED BY CORONADO

The Coronado Fire Department employs 29 uniformed full-time firemen, 19 of whom have Emergency Medical Technician certificates, and 1 office personnel. The Department maintains a minimum of 3 firemen per shift at its Silver Strand substation, and 6 firemen per shift at its Coronado Island main station.

The Coronado City Police Department employs 31 sworn, full-time police officers, 1 community service officer (crossing guard), 17 reserve officers, and 7 office personnel plus 1 part-time. In addition, the Department employs a full-time animal control officer and a full-time parking enforcement officer. The Police Department maintains a Detective Bureau (3 officers), and a Juvenile Bureau (1 officer).

The Coronado Park and Recreation Department employs approximately 15 full-time and 17 part-time personnel. The number of part-time personnel varies between the summer and winter months.

The City has a 5-member City Council, a 5-member Planning Commission, and 7 persons on the management level in the City staff. The City employs additional personnel for administration, water and sewer line maintenance and construction, street lighting and maintenance, flood control, weed abatement, building inspection, and library services.

CITY OF DEL MAR

INTRODUCTION

Del Mar is a city of 1,088 acres located north of the City of San Diego on the coast of the Pacific Ocean. It has a population of 5,259 (January, 1979), and has experienced a population growth rate of 32.5% between the years 1970-1979. The projected population for Del Mar in the year 1995 is 5,327. The growth rate between the years 1979 and 1995 is anticipated to be 1.3%. The City has a recognized Council-Manager form of government.

The City imposes an overall tax rate of \$.316 per \$100 of assessed valuation (fiscal year 1978-79). At the end of 1979, \$1,885.00 remained unmatured on General Obligation Bonds, and \$1,575.00 remained unmatured on Revenue Bonds.

AGENCIES SERVING DEL MAR

The City of Del Mar contracts with the County Sheriff's Department for police protection. This service is provided to the City by the Encinitas office of the Sheriff's Department, which dispatches 4 one-man patrol cars in both the morning and evening shifts and 3 two-man patrol cars during the night shift. Del Mar is allocated approximately 37% of the time spent by one of the patrol cars on each of the shifts. According to County data, the total personnel located at the Encinitas office include 32 patrolmen, 6 patrol sergeants, 1 lieutenant, 1 captain, 6 detectives, 1 detective sergeant, and 1 civilian. The office has a reserve force of approximately 20 persons.

Ambulance and Paramedic service is provided to the people of Del Mar by County Service Area No. 17 (San Dieguito). The service area operates 3 ambulances, all of which are equipped with radio devices which allow communication with medical doctors at Scripps Hospital. One of the ambulances contains equipment which transmits EKG readings to the hospital. These devices allow employees of the service area to render on-site emergency medical treatment with the advice of physicians.

The County of San Diego library system maintains a branch library in the City of Del Mar. This facility has a seating capacity of about 15; it can accommodate up to 100 adults and children when it presents community programs.

DEL MAR'S MAJOR CAPITAL ASSETS

Fire protection is supplied to the City of Del Mar by the Del Mar Fire Department. The Department operates out of one central station and owns 3 pumper trucks with pumping capacities of 1,500, 1,000, and 750 gpm, respectively. In addition, the Department owns 2 staff cars, and 1 crash rescue vehicle. All of the structures located in the City of Del Mar are within a 3-4 minute response time from the Fire Department's station.

The City of Del Mar retails water to the inhabitants of the City and owns and operates a water storage and distribution system. Del Mar is a member of the California Water Authority, from which it purchases all of its water needs. The initial storage of the CWA water destined for Del Mar is provided by the City of San Diego at San Diego's Miramar reservoir and transports it to the City of Del Mar. Del Mar's major capital assets relating to water supply include a distribution system and 4 water storage reservoirs, ranging in size from 250,000 gallons to 2,000,000 gallons. The City has a total water storage capacity of 4,000,000 gallons, sufficient to provide the City approximately 15 days of storage in its peak days of water demand.

The City of Del Mar collects the sewage created within its jurisdiction and contracts with the Metropolitan Sewerage System for its treatment and disposal. Under the terms of the contract, Del Mar is allocated 0.8 mgd capacity rights in the Metro's Point Loma treatment and disposal facility. The City's current flow through the plant averages about 0.4 mgd.

The State-owned Fairgrounds and Del Mar Racetrack are both located within the City of Del Mar. While Del Mar does not own or operate these facilities, the City is responsible for providing services to them. When the Fairgrounds are operating, the demand upon Del Mar's water and sewer facilities almost doubles. Del Mar is completing an open space acquisition program and is now underway with planning and designing of oceanfront, bluff, and canyon parks and public areas.

PERSONNEL EMPLOYED BY DEL MAR

The City of Del Mar Fire Department employs 8 uniformed full-time fire fighters (6 of whom have an Emergency Medical Technician certificate), augmented by volunteer reserves plus a fire chief

and 2 students employed as trainees. The department maintains a minimum of 3 firefighters per shift, with a full shift consisting of 3 firefighters during the day and 4 at night.

The City of Del Mar has a 5-member City Council, a 5-member Planning Commission, a 7-member Design Review Board, and 8 management-level staff members. The City also maintains a professionally staffed Planning Department and additional personnel for administrative services, public works maintenance, and beach lifeguards.

Incorporated in 1912; a General Law City

CITY OF EL CAJON

INTRODUCTION

El Cajon is a city of 9,015 acres and is located east of the City of San Diego. It has a population of 72,100 (January, 1980). The projected population for El Cajon in the year 1995 is 80,000. The growth rate between the years 1980-1995 is anticipated to be 11%.

The City imposes a tax rate of \$.03 per \$100 of assessed valuation (fiscal year 1979-80) for debt retirement of a sewer bond.

AGENCIES SERVING EL CAJON

The City of El Cajon is located within the jurisdictions of three special districts which provide several urban-type services to the residents of the City. Water is distributed to the inhabitants of El Cajon by the Helix Water District and Padre Dam Municipal Water District. The District is a member of the California Water Authority, from which it purchases over 90% of its water needs. The Helix Water District shares the ownership and use of some transmission facilities with both the Padre Dam Municipal Water District and the City of San Diego. Padre Dam Municipal Water District serves some of the northern portions of the City.

The City of El Cajon is also located within the Grossmont Hospital District, which maintains a 234-bed hospital in the City of La Mesa.

The County of San Diego maintains 2 branch libraries within the City of El Cajon: the 130-seat El Cajon branch, and the 60-seat Fletcher Hills branch. The San Diego Transit Corporation provides public transportation for the City.

EL CAJON'S MAJOR CAPITAL ASSETS

The City of El Cajon provides many of the major urban services to the inhabitants of the City including police and fire protection, sewage collection, and park and recreation facilities.

The City of El Cajon collects the sewage created within the City, and contracts for its treatment and disposal with the Metropolitan Sewerage System of the City of San Diego. Under the agreement, El Cajon's capacity rights to Metro's Point Loma Plant is 10.0 mgd; its average flow in fiscal year 1979-80 was 9.20 mgd. The contract between El Cajon and the Metro System extends to the year 2001 and contains a 10-year renewal option.

The El Cajon Fire Department maintains one central fire station and three substations. The Department owns 2 ambulances, 1 rescue vehicle, 7 staff cars and trucks and various pumper (four 1,250 gpm pumper, and three 1,500 gpm pumper). In El Cajon, 85% of the structures are within a 3-minute response time from one of the Fire Department's facilities. The Helix Water District and Padre Dam Municipal Water District provide the water used by the Department. The City of El Cajon has an ISO rating of "2".

The El Cajon Police Department operates out of one central station and owns 38 staff vehicles. Police officers respond to "priority calls" within 5 minutes.

The Parks Department of the City of El Cajon maintains a total of 4 mini-parks and one play lot, 4 neighborhood parks, 4 community parks, and 2 bike or hiking trails.

The Recreation Department conducts a varied recreation program (at the Renette, Kennedy, and Fletcher Hills Community Centers), an aquatics program, a gymnasium program (held at El Cajon High and Granite Hills High Schools), a senior citizens recreation program and information service (at Wells community center), a competitive youth and adult sports program, and several staffed playgrounds (five in Winter, 10 in Summer) that offer a variety of activities.

Yellow Cab Company operates a public transportation system, the El Cajon Express, within the City limits of El Cajon. Under a contract between the City of El Cajon and Yellow Cab Company, the City subsidizes this system by federal revenue sharing funds. The system operates on a demand-response basis.

Gillespie Field, a general aviation airfield is operated by the City of El Cajon.

PERSONNEL EMPLOYED BY EL CAJON

The City of El Cajon Fire Department employs 72 sworn, full-time uniformed personnel, 15 office personnel, and 4 fire prevention officers. In the Department, 30 personnel have Emergency Medical Technician certificates and 8 are American Red Cross advanced first-aid instructors.

The El Cajon Police Department employs 90 sworn, full-time personnel, 95 part-time personnel, 20 police cadets, 25 part-time mounted police officers and 47 office personnel. Of the full-time personnel, 58 are in patrol division, 8 are in traffic division, 14 are in investigations division, 5 are administrators, and 5 deal with records and identification. Of the full-time personnel, 19% have college bachelor degrees. (1978 data)

The Parks Department employs 31 people full time, and the Recreation Department employs 11 people full-time.

The City of El Cajon has a 5-member City Council, a 5-member Planning Commission, and approximately 24 people on the management level in the City staff.

The City also maintains a staff in its Planning Department and additional personnel for administration, street lighting and maintenance, animal regulation, weed abatement, land use control, and sewer maintenance and lateral construction.

CITY OF ESCONDIDO

INTRODUCTION

Escondido is a general law city of 13,339.81 acres located south-east of the City of San Marcos and north of the City of San Diego at the intersection of Highways I-15 and 78 in northern San Diego County. It has an estimated population of 63,000 (January, 1980) and has experienced a population growth of 67 percent between the years 1970-1980. The projected population for the City of Escondido general plan area in 1995 is 117,330. The growth between the years 1973-1995 is anticipated to be 144 percent.

The City imposes a tax rate of \$0.141 per \$100 of assessed valuation (fiscal year 1979-80) for debt retirement of current bonded indebtedness of \$4,720,000 on General Obligation Bonds.

AGENCIES SERVING ESCONDIDO

The City of Escondido is located within the service area of the Palomar Resource Conservation District. This District cooperates with the United States Department of Agriculture Soil Conservation Service to provide technical assistance to the landowners within the District.

The City is also located within both the Escondido Cemetery District, which maintains a 78.2 acre cemetery within the City of Escondido, and the Northern San Diego County Hospital District, which maintains a 300-bed, full-service hospital in downtown Escondido.

Bus service is provided by the North County Transit District.

ESCONDIDO'S MAJOR CAPITAL ASSETS

The City of Escondido provides a variety of urban services to the inhabitants of the city. Included are police and fire protection, park and recreation facilities and services, water and sewer services, public works and engineering, planning and zoning, building permits and inspection, a senior center and animal control services. The City contributes partial funding to a community clinic, youth counseling program, a nutrition program, a visitors and information bureau, police reserves, a Cultural

Arts Commission, Historical Society and others. In addition, the City franchises cable television, taxi service, ambulance service, trash disposal and wheelchair bus service.

The City of Escondido retails water to the inhabitants of the City, as well as to people living outside Escondido's boundaries. Approximately 20 percent of Escondido's water sales are to areas outside its incorporated boundaries. There are two private water companies located within the City of Escondido. Of these, the Mutual Water Company has been consolidated with the City system and is operated by the City. There has been prolonged court litigation between the City and Rincon Del Diablo Mutual Water District concerning eventual City absorption of that company. The Vista Irrigation District, a public special district, provides water to a very small portion of the City located on its northern boundary. The City of Escondido became a member of the San Diego County Water Authority in 1950, and presently purchases about 75 percent of its water needs from this agency. The remaining 25 percent is produced from local wells. Lake Wohlford provides about 6,900 acre feet of water storage capacity for the City of Escondido while the Dixon Dam Reservoir provides 3,200 acre feet of water storage. This latter reservoir is capable of receiving water from the CWA's first San Diego aqueduct and from Lake Henshaw. The City has a total water storage capacity of 9,420 acre feet, which is sufficient for 30 days of storage in the City's peak month of water use. A 50 mgd water filtration plant is located at Dixon Reservoir. Operation of this facility is in cooperation with the Vista Irrigation District.

The City owns and operates a sewage treatment plant which provides secondary treatment. The design capacity of this facility is 11 mgd. The present average daily flow through the plant is 8.5 mgd. The City of San Diego uses a share of the capacity to treat the sewage collected in the Rancho Bernardo area. Their allocated share is 3.0 mgd for this purpose, and San Diego pays a percentage of the plant's operating costs to Escondido. At present, the City is using 5.7 mgd and San Diego 2.8 mgd of the capacity. Disposal of the effluent treated by the facility is accomplished pursuant to a joint powers agreement between the City of Escondido and the Solana Beach and Cardiff Sanitation Districts. These two sanitation districts jointly constructed the San Elijo Water Pollution Control Facility which is located on the Pacific Ocean approximately 3,700 feet from the coastline by an ocean outfall. An expansion of the facility is under way to increase capacity to 15 mgd.

The City has a full-time, highly-trained staff of firefighters and support personnel. The ISO classification for Escondido is Class 4. The Fire Department operates out of one headquarters station and three substations. The department equipment includes a snorkel unit, puffers, and brush rigs. The Department also provides paramedic service and a rescue unit. Virtually all of the structures in the City of Escondido are within a five minute response time from the Fire Department's facilities.

The City Police Department is well-trained and equipped to meet all of the typical community responsibilities, such as traffic, patrol, criminal investigation and crime prevention, and has sections devoted to records identification, juvenile work, and officer training. It is housed in a modern facility that includes an emergency operating center and detention cells. There are more than 100 sworn and non-sworn regular members of the department, plus 50 police reserves. Automotive equipment includes patrol cars, detective vehicles, traffic enforcement motorcycles and electric cars for parking regulation enforcement. Police emergency response time within the city is 3 - 5 minutes.

The Parks and Recreation Department of the City maintains 17 play lots and mini-parks, four community parks, three regional parks (over 200 acres) for a total of 2,200 acres of park lands. In addition, the City operates one swimming pool, with a second one approved for construction, and two freshwater lakes with fishing, boating and camping facilities. Also provided are a Senior Citizen Center and a Teen Center. A variety of recreation programs for both children and adults are offered throughout the City.

The City provides library services and maintains a 75-seat library located within Escondido. A new, much larger library has been approved for construction, which will provide a wide range of multi-media reference materials in addition to the usual books and periodicals. The City Library is a member of the Serra Regional Library system.

PERSONNEL EMPLOYED BY ESCONDIDO

There is a total staff of 468 full-time, permanent employees divided among the various departments. In addition, there are 69 part-time and temporary employees. Appointed officials serving on the various boards and commissions total 59. The seven elected city officials include five City Council persons, the City Clerk and the City Treasurer.

CITY OF IMPERIAL BEACH

INTRODUCTION

The City of Imperial Beach consists of 2,816 acres located south of San Diego Bay on the Pacific Ocean coast. The City has a population of 21,753 (April, 1975) and has experienced a population growth rate of 7.5% between the years 1970-1975. The projected population of Imperial Beach in 1995 is 22,707. (Note: The April, 1975, population figure was obtained from the State Department of Finance 1975 Special County-wide Census of Population. The growth rate, as determined by CPO, between the years 1975-1995 is anticipated to be 4.4%).

At the end of 1977, the City had \$632,353 unmatured on General Obligation Bonds.

AGENCIES SERVING IMPERIAL BEACH

Water is supplied to the inhabitants of Imperial Beach by the Coronado Division of the California American Water Company, a private, investor-owned corporation. This division of the water company receives its water from the City of San Diego which in turn obtains its water from the California Water Authority. The agreement between the Coronado Division of the California American Water Company and the City of San Diego stems from an exchange under which the water company deeded over the Otay Reservoirs in return for a promise by the City of San Diego to supply all of the water needed by the Coronado Division. Imperial Beach is served with filtered water by the California American Water Company from these reservoirs.

The San Diego Transit Corporation and Circle Bus Company provide bus service to the City of Imperial Beach.

The County of San Diego maintains a branch library within Imperial Beach with an approximate seating capacity of 30. Up to 100 persons can be accommodated when the library conducts special events and programs.

The City of Imperial Beach collects the sewage produced within its jurisdiction, and contracts with the Metropolitan Sewerage System of the City of San Diego for its treatment and disposal. The capacity rights allocated to Imperial Beach in the Metro System's Point Loma plant is 3.5 mgd; its current flow through this facility is 2.42 mgd.

The City of Imperial Beach contracts with the County of San Diego for Animal Control Regulation within the City limits. In addition, the City employs (through a CETA funded program) a Beach Enforcement Officer whose primary task is to enforce Municipal ordinances in the beach area with emphasis placed on animal regulation on the City beaches.

IMPERIAL BEACH'S MAJOR CAPITAL ASSETS

The City of Imperial Beach provides many of the major urban services to the inhabitants of the City including police and fire protection, park and recreational facilities, and trash collection.

City Sanitation forces collect refuse on a twice a week pickup basis for residential customers and as needed for commercial customers. Refuse is delivered to the Otay Landfill site for disposal.

The Street Division maintains all streets, alleys and storm drains within the incorporated City Limits.

The Imperial Beach Fire Department operates out of one Headquarters Station and owns two (2) staff cars, one (1) utility pick-up truck, two (2) ambulances, one (1) 1,500 gpm pumper, one (1) 1,000 gpm pumper and one (1) four wheel drive mini-pumper 250 gpm. All of the structures located in Imperial Beach are within five (5) minute response time from the Department's Fire Station.

The Imperial Beach Police Department operates out of one Headquarters Station and owns approximately 12 patrol cars. The number of cars out per shift varies from 3 - 6. It takes an officer an average of about 2 minutes to respond to an emergency call.

The City of Imperial Beach Park and Recreation Department maintains 2 mini-parks, 1 neighborhood park and 2 community parks. In addition, under agreements with the local high school, the Department operates the high school's swimming pool and 4 lighted tennis courts during the summer months. The City also maintains a fishing pier and various ocean beach life-guard stations. The City operates a varied recreation program including an after school program, arts and crafts activities, senior citizens program, adult athletic leagues, pre-school program and classes ranging from tap and ballet to prepared childbirth.

PERSONNEL EMPLOYED BY IMPERIAL BEACH

The Imperial Beach Fire Department is comprised of 15 regular firefighters, an assistant fire chief, fire chief, and one office employee. The major functions of the department are fire prevention, fire suppression, emergency medical care and emergency ambulance service. Also, the department has a force of approximately 15 volunteer firefighters.

The Imperial Beach Police Department has 23 sworn, full-time police officers, 4 dispatchers, and 5 persons dealing with clerical functions. The department retains a reserve force of 25 - 30 persons.

The City Council is comprised of five elected officials, one Mayor and four Council Persons. There are ten boards and commissions that recommend and advise the Council on various courses of action specific to their particular area of responsibility.

There are 11 management level employees, the City Manager, and department heads. Additionally, the City has 45 regular permanent employees in the departments of Building, Planning, Public Works, Parks and Recreation and Administration.

Also, the City employs, at different times, other temporary and part-time persons.

CITY OF LA MESA

INTRODUCTION

The City of La Mesa covers an area of 9.05 square miles, and is located south of the City of El Cajon and east of the City of San Diego. The City currently has a population of 53,227.

The City currently has no outstanding bonded indebtedness.

AGENCIES SERVING LA MESA

Serving La Mesa are the Helix Water District, Grossmont High School District, La Mesa Spring Valley Elementary School District, Grossmont Hospital and a Branch Library service provided by the County of San Diego.

LA MESA'S MAJOR CAPITAL ASSETS

La Mesa provides its own Public Safety Service with one central fire station and two substations. The department's equipment includes one rescue tanker, four staff vehicles, three 1500 gpm puffers, one 1000 gpm fire pumper, one crash twin-agent, one tanker, one State-owned 1000 gpm fire pumper and one 90 foot elevated platform.

Police equipment includes three ambulances, nine patrol cars, four investigation cars, three undercover cars and one staff unit.

Recreation is provided through a combination of School District facilities and City Recreation and Park facilities. School facilities consist of elementary playgrounds, two Senior High Schools and two Junior High Schools.

The Park and Recreation Department operates a comprehensive program in areas of sports, aquatics, cultural arts, senior citizen activities and special events. Its facilities include one community center, two swimming pools, one adult center, one fine arts center, and lighted tennis courts. It also oversees the operation of a nine-hole golf course.

Public transportation is provided by the San Diego Transit system. A 24-hour a day "Dial-a-Ride" system also operates in the City.

PERSONNEL EMPLOYED BY LA MESA

Public safety employees include 52 uniformed firefighters, 1 office worker, 52 full-time sworn police officers, 2 animal control officers, 12 office personnel and 2 crossing guards.

Recreation employees consist of 8 full-time administrative personnel, 2.5 full-time office personnel and 60-90 seasonal staff (part-time).

La Mesa has a 5-member City Council, 7-member Planning Commission and 7-member Parks and Recreation Commission. In addition, the Department of Public Works employs 60 personnel and other City Hall departments employ 55 personnel.

The total budgeted full-time staff for fiscal year 1979-80 is 242.

CITY OF LEMON GROVE

INTRODUCTION

Lemon Grove, located nine miles east of San Diego, is 3.75 square miles in size and the newest city in San Diego County, having been incorporated July 1, 1977. The 1977 estimated population was 20,400. The 2000 projected population for Lemon Grove is 25,480.

The City currently has no bonded indebtedness.

AGENCIES SERVING LEMON GROVE

Filtered water is provided to Lemon Grove by Helix Water District which receives its water from the Metropolitan Water District of Southern California through its membership in the San Diego County Water Authority.

Bus service is provided by the San Diego Transit Corporation to the City of Lemon Grove and Dial-a-Ride service is provided through a contract with Yellow Cab Company. The County of San Diego maintains a branch library in Lemon Grove.

Law enforcement and street maintenance services are provided under contract by the County to Lemon Grove.

Sewer service in the City of Lemon Grove is provided by the Lemon Grove Sanitation District, which is operated under contract by the San Diego County Department of Sanitation and Flood Control. The City Council of the City of Lemon Grove serves as the Board of Directors of the District. The District contracts with the San Diego Metropolitan Sewerage System for treatment and disposal. The capacity rights allocated to the Lemon Grove Sanitation District are 2.8 mgd and current flow is 1.769 mgd.

LEMON GROVE'S MAJOR CAPITAL ASSETS

Fire protection is provided by the Lemon Grove Fire Department which maintains one headquarters station with four engine companies and a rescue vehicle. The compliment of 19 fire-fighters (including a chief, assistant chief, and two captains), and three dispatchers is supplemented by 20 volunteers.

PERSONNEL EMPLOYED BY LEMON GROVE

City Administrative staff is composed of a City Manager, an Administrative Assistant, City Clerk-Treasurer, a Secretary and Clerk. Lemon Grove is a general law city with five city council members elected at large who serve overlapping four year terms.

Incorporated in 1887; a General Law City

CITY OF NATIONAL CITY

INTRODUCTION

The City of National City, incorporated on September 17, 1887, covers 8.34 square miles and is located adjacent to the San Diego Bay, south of the City of San Diego and north of the City of Chula Vista. The City has a population of 48,100 (Jan. 1979) and has experienced a population growth rate of 10% between the years 1970-1979. The projected population for National City in 1995 is 49,000.

The City imposes a tax rate of \$.031 per \$100 of assessed valuation (for bonded indebtedness only). As of June, 1979, \$340,000 remained unpaid on General Obligation Bonds.

AGENCIES SERVING NATIONAL CITY

The retail distributor of water for the residents of the city is the Sweetwater Authority, a public entity owned by the South Bay Irrigation District (SBID) and National City. A joint powers agreement between the South Bay Irrigation District and National City created the Sweetwater Authority. SBID and National City purchase 75% from local sources. The Sweetwater Authority operates the water utility service in National City, Chula Vista and surrounding areas. The Authority owns the National City wells, the Sweetwater and Loveland Reservoirs, the filtration plant at the Sweetwater Reservoir and the water distribution system.

The San Diego Transit Corporation provides bus service to National City. National City contracts with Bayshore Transit Management Inc. (doing business as National City Transit) to provide bus service.

National City Transit operates 3 routes providing residents easy access to major activity centers within National City, as well as providing them with convenient connections to San Diego Transit Corporation bus service to downtown San Diego.

National City Transit, which employs 19 people, has 5 buses on route daily with 4 buses in reserve. The buses are stored and maintained at the National City Public Works Yard. The average weekday ridership as of December, 1979 was 1,050 passengers. The City of Chula Vista furnishes pound service under contract.

NATIONAL CITY'S MAJOR CAPITAL ASSETS

The City of National City provides many of the major urban services to its inhabitants including police and fire protection, sewer service, park and recreation facilities, and library service. The National City Fire Department operates out of one headquarters station, located in the approximate center of the City, and a substation, located in the western portion of the City near San Diego Bay. The Department operates 4 staff cars, 2 rescue vehicles and 4 pumpers with pumping capacities of 1,000 gpm, 1,250 gpm (2 vehicles), and 1,500 gpm (located at the substation). Of the structures located in National City, 70% are within a 3-minute response time from the Fire Department's facilities, 95% are within a 5-minute response time, and 100% are within a 7-minute response time. The Sweetwater Authority provides the water used by the Department.

The National City Police Department operates out of one main station in the Civic Center and operates 23 cars. It takes a police officer an average of 1 - 3 minutes to respond to an emergency call.

The City of National City provides the service of sewage collection and contracts with the Metropolitan Sewerage System of the City of San Diego to treat and dispose of the sewage. By agreement, National City is entitled to purchase 8.1 mgd of treatment and disposal capacity in the Metro's Point Loma plant; its current flow through this facility is 4.0 mgd.

Streets, sewers, city buildings and the cities vehicle fleet are maintained by the 37 employee Public Works force. Around the clock emergency services are provided.

Three recreation centers, 8 school playgrounds and olympic size swimming pool form the nucleus for most recreation activities. Other recreation facilities include a golf course, museum, mini-zoo, 6 tennis courts, boat launching facilities, and a fishing pier. Twenty classes are offered in ballet, baton, guitar, tiny-tots, ceramics, ballroom dance, tap dance, jazz dance, aerobic dance, and judo. Over 9,000 people took part in swim instruction classes and over 30,000 people swam at the pool during 1979. More than 60 men's and women's teams take part in softball. Many different activities and trips are enjoyed by the senior citizens. Residents participated in over 490,000 hours of City-sponsored recreation activities during 1979.

In addition, the City operates a library of 14,000 square feet with an approximate seating capacity of 25 in its Conference Room and 100 in the library itself. The annual circulation is 175,000.

PERSONNEL EMPLOYED BY NATIONAL CITY

The City of National City has operated under the Council-Manager form of government since May, 1950. The City is governed by a five-member Council consisting of four Councilpersons and a Mayor. The City Clerk and City Treasurer are elected to 4-year terms by the constituents of National City. Ten Boards and Commissions (with 58 members) provide for public input and citizen participation in City government.

Fiscal year 1979-80 shows National City with a City staff of 265.5 employees, of which 40 are grant personnel. The City's 9 departments are managed by 11 persons on the management level.

The National City Fire Department employs 40 full-time uniformed firefighters (including 2 fire prevention officers and 1 training officer), and 1 office personnel. In the Department, 24 of the firemen have Emergency Medical Technician certificates. The Department maintains 12 firemen per shift, with 3 per shift at the substation.

The National City Police Department employs 62 sworn full-time police officers (including 1 narcotics officer, 1 juvenile officer, and 8 detectives), 12 office personnel and an animal regulation officer. In addition, the Department has 42 reserves and part-time employees. The Department maintains 6 - 15 police officers per shift, depending upon the hour of the shift.

National City parks are maintained by a staff of 14, while 4 full-time employees and approximately 50 part-time personnel are responsible for recreation services. The Library has 10.5 permanent staff members to assist the community.

Incorporated in 1888; a General Law City

CITY OF OCEANSIDE

INTRODUCTION

The City of Oceanside consists of 25,000 acres and is located in the northwest portion of San Diego County, south of Camp Pendleton. The City has a population of 77,800 people (January, 1980). The projected population for Oceanside in 2000 is 136,000. The growth rate between the years 1980-1995 is anticipated to be 75%.

As of June 30, 1979, \$7,020,000 remained unpaid on Revenue Bonds and \$6,365,000 on General Obligation Bonds.

AGENCIES SERVING OCEANSIDE

The City of Oceanside is located within the jurisdiction of several special districts which provide a variety of services to the residents of the City. The Tri-City Hospital District, which operates a 231-bed, full service hospital within Oceanside, encompasses the City of Oceanside plus the Cities of Vista and Carlsbad and surrounding areas.

The Oceanside Small Craft Harbor District, which maintains and patrols the Oceanside Harbor, also serves the City. The boundaries of the City and the District are contiguous and they share the same governing body. Portions of the City of Oceanside are located within the service areas of the Mission Resource Conservation District and the Palomar Resource Conservation District. These Districts cooperate closely with the United States Department of Agriculture Soil Conservation Service and provide technical assistance to the landowners within the District.

OCEANSIDE'S MAJOR CAPITAL ASSETS

The City of Oceanside provides many of the major urban services to the inhabitants of the City including fire protection, water and sewer service, and park and recreation facilities.

The Oceanside Fire Department operates out of one central station and four substations. The Department owns 3 ambulances, 7 staff cars, 2 pick-up trucks, 1 crash rescue vehicle, 1 forestry brush truck, 2 brush tanker combinations, and 6 puffers.

The Oceanside Police Department operates out of one central police station and owns 52 patrol cars.

Water is supplied to the inhabitants of Oceanside by the City of Oceanside, which owns and operates a water storage and distribution system. The City obtains virtually all of its water from the California Water Authority. Oceanside became a member of this agency in 1944, the year of the County Water Authority's formation. The City maintains wells and pumping equipment in the Mission Basin from which water from local sources may be obtained. However, these are not operating and are kept by the City only as a precautionary measure.

Oceanside owns and operates 7 water storage reservoirs, including the Guajome (5 mg), Morro Hills (5 mg), Fire Mountain (3 mg), San Francisco Peak (1.5 mg) and El Camino (3 mg) Reservoirs. The City has a total water storage capacity of 27.5 mg, sufficient for approximately 1.5 days of storage in the City's peak days of water demand.

The City has completed construction of the 5 mgd Talone Reservoir, 5 mgd Guajome No. 2 Reservoir, and a 12 mgd tri-agency pipeline which connects Oceanside, as well as the Cities of Vista and Carlsbad to a major County Water Authority water aqueduct. The City currently maintains 2 tie-in lines to the Vista Irrigation District.

The City of Oceanside also owns and operates a sewage collection, treatment and disposal system. Presently, sewage collected by the City is treated in 2 treatment plants - San Luis Rey and La Salina - with a combined design capacity of 14.6 mgd. As of January 1, 1977 the total flow from these plants was 6.3 mgd. A third 0.5 mgd treatment facility (Buena Vista) is currently used as a pump station, but could be reactivated in the future. Both treatment plants provide secondary treatment (activated sludge method). After the effluent is treated, it is disposed from a single ocean outfall.

The City of Oceanside maintains six open parks (ranging from 3 to 16 acres), four rest parks, four community center/parks, and two swimming pools within the City. The Department conducts a varied recreation program at the City's community centers and at the various schools within Oceanside. The program includes competitive sports, and a number of arts and crafts activities. The City also operates two municipal golf courses and provides lifeguard services at the City's 3 miles of public beach.

Library services are provided by the City of Oceanside which owns and maintains a 125-seat public library within the City. The Oceanside Library is a member of the Serra Regional Library System.

Public transportation is provided by North County Transit District (NCTD). NCTD serves a 960 square mile area, with connections throughout North San Diego County.

PERSONNEL EMPLOYED BY OCEANSIDE

The Oceanside Fire Department employs 83 uniformed full-time firemen. All of the firemen have had first aid training. There are a minimum of 22 firemen on duty at all times.

The Oceanside Police Department employs 106 full-time sworn police officers, 47 office personnel, and maintains a 25-person reserve. The police officers are assigned on a rotating basis to specialized functions; investigation and traffic control, for example.

The Parks Department employs 28 full-time workers, and the Recreation Department employs 13 full-time workers in various capacities.

The City has a 5-member City Council and 7-member Planning Commission. The City employs additional personnel for management, street lighting and maintenance, animal regulation, weed abatement, land use control, water and sewer service, and administrative functions.

CITY OF SAN DIEGO

INTRODUCTION

The City of San Diego consists of 205,310 acres, has 49 miles of shoreline, including coast and Mission Bay and is located on the Pacific Ocean coast, south of the City of Del Mar, north of the City of National City, and west of the City of La Mesa. The City has a population of 838,300 (June 30, 1979) and has experienced a growth rate of 21% between the years 1970-1980. The projected population for the City of San Diego in 1995 is 1,055,300. The growth rate between the years 1973-1995 is anticipated to be 42%.

The City imposes an overall tax rate of \$.088 per \$100 of assessed valuation (Fiscal Year 1979-1980). At the end of 1979, \$36,338,000 remained unpaid on General Obligation Bonds, \$45,275,000 on Revenue Bonds, and \$19,884,985 for Improvement District Bonds.

AGENCIES SERVING SAN DIEGO

The County of San Diego provides various services to the unincorporated areas of the County and to incorporated cities. These services accrue to the City of San Diego as well as to the 14 other cities in the County. Among the services the County provides are health and human care services, law enforcement services (sheriff, district attorney, probation, municipal and superior courts), environmental regulation and land use plus tax collection assessment services. Many of the facilities and programs are located in the City of San Diego. A law library and governmental reference library are also located in the City.

Public transportation is provided to the City by the San Diego Transit Corporation and the Metropolitan Transit Development Board.

SAN DIEGO'S MAJOR CAPITAL ASSETS

The City of San Diego provides a majority of the major urban services to the inhabitants of the City, including water and sewer services, police and fire protection, park and recreation services, and library services.

The City of San Diego retails water to the inhabitants of the City and owns and operates a water treatment, storage and distribution system. The City also wholesales water to other cities and special districts. The City of San Diego was an original San Diego County Water Authority member. The Authority was formed in 1944. The City obtains approximately 94% of its water supply from the County Water Authority; approximately 6% of its supply is produced locally. Besides its extensive water distribution system, the other major capital assets of the City of San Diego relating to water service include three water filtration plants: the Alvarado Filtration Plant with a design capacity of 120 mgd; the Miramar Filtration Plant with a design capacity of 140 mgd; and the Otay Filtration Plant with a design capacity of 15 mgd. Also included are 7 water storage reservoirs: the El Capitan Reservoir with a capacity of 112,800 acre feet, the Lake Hodges Reservoir with a capacity of 33,550 acre feet, the Miramar Reservoir with a capacity of 7,180 acre feet, the Lower Otay Reservoir with a capacity of 56,519 acre feet, the San Vicente Reservoir with a capacity of 90,230 acre feet, the Sutherland Reservoir with a capacity of 29,684 acre feet, the Lake Murray Reservoir with a capacity of 3,800 acre feet, the Morena Reservoir with a capacity of 50,200 acre feet, and Barrett Reservoir with a capacity of 44,700 acre feet. The City has total water storage capacity of 430,000 acre feet, sufficient for two years' use, when full.

The service of sewage collection, treatment, and disposal is provided by the City of San Diego. The City has constructed the Metropolitan Waste Water Treatment Plant to treat and dispose, through an ocean outfall, the sewage collected in the San Diego area. The Facility has a present design capacity of 120 mgd; its planned ultimate design capacity is 240 mgd, which is expected to be attained by the year 2000. Under the Metropolitan Sewerage System, formed and administered by the City of San Diego, numerous other cities and special districts contract for capacity rights in this facility. The City has an agreement providing for 3 mgd capacity for the Rancho Bernardo area in the Escondido sewerage system.

Fire protection is provided by the San Diego City Fire Department. The Department operates out of 38 fire stations, and maintains 40 engine companies and 10 truck companies. The Department owns 38 active pumper, 14 reserve pumper, and 2 reserve trucks. Other vehicles operated by the Department include 4 airport crash rescue vehicles (operated by the Fire Department but owned by the San Diego Port District), one heavy duty rescue

vehicle, 8 brushfire vehicles and 3 water tankers, 34 fire prevention staff cars, 11 administrative staff cars, 8 battalion staff cars, and 10 miscellaneous staff cars and pick-ups.

The Police Department of the City of San Diego operates out of three stations: a Northern station located in University City, a Central station in downtown San Diego, and a Southern station located in San Ysidro. The Department also operates seven "store front" offices located throughout the City which receive citizen queries and requests regarding various City services. The Police Department owns a total of 416 four-wheeled vehicles, 59 motorcycles (including trail bikes), 45 miscellaneous vehicles (six transportation vehicles, and 23 utility vehicles including one S.W.A.T. van, one paddy wagon, one lab wagon, one 2-ton truck, one 1-ton truck, three beach wagons, six pick-up trucks, one bronco, one trail safe van, two border 4-wheeled drive, one court van, one disaster readiness vehicle, two crime prevention vans, and one mobile communications van which is capable of operating as a main communications control system in the event the stationary system is destroyed or disrupted). Of the 416 four-wheeled vehicles, 288 are active patrol and traffic cars (including supervisors' and chiefs' cars) and 128 are unmarked detective cars. It takes a patrol officer an average of 6.9 minutes to respond to emergency and non-emergency calls originating from within the City.

The Park and Recreation Department of the City of San Diego has under its jurisdiction:

	<u>Sites</u>	<u>Acreage</u>
Parks	160	11,079.19
Open Space Parks	23	2,033.87
Turfed School Areas	20	67.90
Lakes	<u>8</u>	<u>3,317.78</u>
TOTAL	211 Sites	16,498.74 Acres

Included in the park land are approximately 14 miles of useable ocean beaches and 8 miles designated for park and shoreline use in Mission Bay. Also included are Balboa Park (1,158.43 acres) and Mission Bay Park (4,225.26 acres). Personnel from the Department operate 54 recreation centers, 78 school playgrounds, 16 gymnasiums, 58 athletic fields, 4 golf courses (2 in Balboa Park and 2 at Torrey Pines), 10 permanent and 6 portable swimming pools, 126 concrete tennis courts (94 lighted), 8 recreation stations at City lakes, 1 children's fishing lake, and 13 shuffleboard clubhouses. Included in the City's recreation programs are

competitive sports, handicapped recreation, family fitness and fun programs, dancing, arts and crafts activities, the San Diego Youth Gym, the San Diego Youth Chorale, the San Diego Junior Theater, and various senior citizen programs. Lifeguard services are provided at various City beaches.

The City of San Diego maintains one central library in downtown San Diego, and 29 branch libraries throughout the City. The central library has been designated as a depository for State of California and Federal documents.

PERSONNEL EMPLOYED BY SAN DIEGO

The City has a nine-member City Council, a seven-member Planning Commission, an elective City Attorney, eight persons on the management level in the City Manager's office, and five departments (Planning, Personnel, Clerk, Auditor and Comptroller, and Legislative Representation) reporting directly to the City Council.

Total City employment is 6,187. The San Diego City Fire Department employs 710 uniformed full-time firemen and 43 office personnel. About 75 of the firemen have Emergency Medical Technician certificates; all of the firemen are anticipated to have this rating in the future. The Department assigns a minimum of three firemen per station at the truck companies.

The San Diego Police Department employs 1,221 sworn full-time police officers and 396 non-sworn personnel. Many of the police officers have Emergency Medical Technician certificates. The Department maintains a reserve force of approximately 225.

The Park and Recreation Department employs 770 full-time equivalent employees ("full-time equivalent" refers to the number of positions budgeted based upon a 40-hour week; the actual number of employees is greater because of part-time employees).

The City employs additional personnel in the Engineering and Development Department, Water Utilities Department, Planning Department, and Property Department.

CITY OF SAN MARCOS

INTRODUCTION

San Marcos is a city of 20 square miles located east of the City of Carlsbad and northwest of the City of Escondido in northern San Diego County. The City has a population of 15,400 (January, 1980). The projected population for the City of San Marcos in 1995 is 34,000. The growth rate between the years of 1980-1995 is anticipated to be 152%.

The City has no outstanding General Obligation or Revenue Bonds.

AGENCIES SERVING SAN MARCOS

A variety of urban services are provided to the inhabitants of San Marcos by agencies other than the city.

Water is provided to the people of the City of San Marcos by the San Marcos County Water District. The District receives its water supply from the California Water Authority through the Buena Colorado Municipal Water District. The City is located within the service areas of both of these Districts. The total water storage capacity of the San Marcos County Water District is 345 acre feet.

The San Marcos County Water District also provides sewer service to the people of the City of San Marcos. The District operates a collection system and is a member of the Encina Joint Sewerage Agency (also participating is the Vista Sanitation District, City of Carlsbad, Buena Sanitation District, Leucadia County Water District and Encinitas Sanitary District), under which it utilizes the Encina Water Pollution Control Facility, located in the City of Carlsbad, for the treatment and disposal of sewage. The facility provides primary treatment and has an average dry weather flow of 13.75 million gallons per day. Under the Joint Powers Agreement, the capacity rights of the San Marcos County Water District in the treatment plant is 2.40 mgd. The ultimate planned capacity of the facility is 45.75 mgd. The treated effluent is discharged into the Pacific Ocean approximately 8,000 feet from shore by an ocean outfall.

Fire protection is provided to the City by the San Marcos Fire Protection District. The District operates out of one central fire station and owns 3 pumper and brush rig. The District also provides emergency medical services; it operates a rescue unit and all of its full-time firemen have Emergency Medical Technician certificates. Ambulance service from Escondido is also available.

SAN MARCOS' MAJOR CAPITAL ASSETS

The City of San Marcos has one of the most promising industrial centers in North San Diego County with approximately 100 acres zoned industrial. In addition, San Marcos offers a variety of housing alternatives from well designed mobilehome parks to homes on large acreage.

Although contracting for many of its services, San Marcos does provide a variety of urban services. Recreation is heavily budgeted and the City has approximately 100 acres of land designated for park development.

The City of San Marcos contracts with San Diego County for Sheriff's protection, providing its residents with quality police protection at a cost half of what a city police department would cost.

PERSONNEL EMPLOYED BY SAN MARCOS

The City of San Marcos has a five member City Council, a seven member Planning Commission and employs approximately 50 persons including six on the management level.

Incorporated in 1963; a General Law City

CITY OF VISTA

INTRODUCTION

Vista is a city of 15 square miles, located east of the City of Oceanside and northwest of the City of San Marcos in northern San Diego County. It has a population of 33,350 (January 1980) and has experienced a population growth rate of 18.6% between the years 1970-1977. The City is expected to have a population of 50,200 in the year 1995. The projected growth rate between the years 1977-1995 is 39.6%.

The City currently has no outstanding bonded indebtedness.

AGENCIES SERVING VISTA

Several major urban services are supplied to the people of Vista by agencies other than the City. The Vista Irrigation District procures and distributes water directly to the inhabitants of the City. The water retailed by the District is obtained from Lake Henshaw, and from the California Water Authority through the Bueno Colorado Municipal Water District. The City of Vista lies within the service areas of both of these Districts.

The City of Vista is also within the boundaries of the Palomar Resource Conservation District. This District cooperates closely with the United States Department of Agriculture Soil Conservation Service and provides technical assistance to the landowners within the District.

Sewer service is provided to the inhabitants of the City of Vista by the Vista Sanitation District. The City Council of Vista is the governing board for the District. The District's collection system is connected to the Encina Water Pollution Control Facility, which treats and disposes the sewage under a joint powers agreement (also participating is the City of Carlsbad, the San Marcos County Water District, the Buena Sanitation District, the Encina Sanitary District and the Leucadia County Water District), creating the Encina Joint Sewerage Agency. The facility provides primary treatment and has an average dry weather flow of 13.75 mgd. The present capacity rights of the Vista Sanitation District in the treatment plant is 4.05 mgd. The ultimate planned capacity of

the plant is 18.0 mgd. The treated effluent is discharged into the Pacific Ocean approximately 8,000 feet from the shore by an ocean outfall.

The North San Diego Transit District provides bus service to the City of Vista. At present, there are three intra-City lines in operation and also a network of inter-city service is provided throughout the North San Diego County region.

The City of Vista is located within the Tri-City Hospital District, which operates a 171-bed, full service hospital in the City of Oceanside. Library service is provided by the County of San Diego, which maintains the local branch. The library can seat approximately 56 people in its reading rooms; there is an adjoining room used for special events which can seat approximately 75 adults.

In addition, the City of Vista contracts with the San Diego County Sheriff's Department for police protection. The Sheriff's Department maintains a substation in Vista, from which cars and personnel are dispatched to provide police protection to the Cities of San Marcos and Vista, and the unincorporated areas around the Cities and around the City of Escondido.

The San Diego County Sheriff's Department has assigned to Vista, California, under contract, for law enforcement as general patrol units: 2 one-man units on day shift; 4 one-man units on the evening shift; and 3 one-man units on the night shift. In addition, traffic enforcement consists of: 2 motorcycle officers, 5-days per week during day hours; two 5-day per week traffic car officers; two 7-day per week traffic officers; and one 5-day traffic safety officer.

Assigned shifts are based upon workload analysis and minimum coverage, on a 16-hour per day basis. Supervision of these workloads consists of: 1 Lieutenant; 1 Traffic Sergeant; and 3 Patrol Sergeants on a 24-hour basis, 7-days per week.

The traffic and patrol units are provided total supportive investigative and technical services within the contract. Emergency service response time averages between 4 to 6 minutes, depending upon the number of calls for services. Staffing formulas are: 1.74 (7-day units); 1.25 (5-day units with relief). Total deputies, excluding support services assigned to Vista: 1 Lieutenant; 4 Sergeants; and 24 Deputies.

VISTA'S MAJOR CAPITAL ASSETS

The City of Vista maintains a Fire Department which operates out of one Headquarters Fire Station and two substations. The department operates two Mobile Intensive Paramedic Units (Ambulances), three 1,000 gpm pumbers, one 4-wheel drive heavy rescue pumper, and one 4-wheel drive brush pumper/tanker. Reserve pumbers consist of two 1,000 gpm pumbers, one of which is an O.E.S. Unit. Auxiliary vehicles consist of five staff cars, two pick-ups and one jeep.

Approximately 90% of the structures within the jurisdiction are within a 5-minute response time from one of the Fire Department's facilities.

The Vista Recreation Department maintains 1 community park, 5 neighborhood parks, and 4 mini-parks. The Department owns a multi-purpose community center and is in the process of developing a new recreation center in its community park. The Department conducts a varied recreation program, including competitive sports, arts and crafts activities, and various educational classes.

PERSONNEL EMPLOYED BY VISTA

The City of Vista Fire Department employs 44 uniformed full-time firefighters, consisting of a Fire Chief, 2 Battalion Chiefs (serving as Fire Marshal and Operations Inspector), 1 Fire Prevention Specialist, 7 Firemen/Paramedics, and 31 Firemen. Office personnel consists of 1 Secretary and 2 Dispatcher/Clerks. A Weed Abatement Inspector and Janitor Trainee are employed part-time. Manpower on duty consists of 1 chief officer, 4-5 firefighters, 2 paramedics and dispatcher at headquarters station; and 2-3 firefighters at each of the two substations.

The Parks and Recreation Department employs 25 full-time personnel in various capacities. The number of part-time employees ranges from 10 to 50, with the largest number employed during the summer months.

The City has a 5-member City Council, a 7-member Planning Commission, and 8 persons on the top management level in the City staff. The City employs additional personnel for street lighting and maintenance, engineering and administration.
